Questions 16 – 25

Based on the information given, complete the graphic organizer below.

Section C

[25 marks]

Read the passage below and answer the questions that follow.

- 1 Arriving home after her part-time job at Burger King, Lykesia Lilly planned to shoot some hoops with her little nephew Adrian. It was late afternoon one Sunday. But when Lilly, 18, asked her sister where the boy was, her casual question was met with concern. "I was outside looking for him because his dad and I realised we hadn't seen him in a while," recalls 5
Adrian's mother, Stephanie Crump, 29, an insurance agent. "He was supposed to be playing at a house down the street, but when we called, he wasn't there."
- 2 In their tiny, rural community of Burnsville, North Carolina (population 1644), kids still run freely from yard to yard. But on that sunny May 10
afternoon, six-year old Adrian Clark seemed to have simply vanished. His close and extended family joined in a frantic search, combing the neighbourhood and his usual play spots. Finally, they heard faint cries coming from below a mound of rocks piled on his grandmother's lawn. "We could hear him, but we couldn't see him," recalls Lilly. "It was like he was 15
invisible."
- 3 Following his voice, they stumbled on an abandoned well covered with landscaping shale that had been forgotten for years. There, down the dark, narrow shaft, they saw him – a small figure 4.5 metres below, suspended over water. Exhausted and shivering, he'd been clinging to pieces of craggy 20
rock and concrete for nearly an hour.
- 4 From the lip of the well, the family tried to reassure the child. But they had no idea how to get him out. The well was only 35 centimetres wide at the top. "We realised none of the adults could fit through it," says Crump. They lowered a long orange extension cord, but Adrian – who'd slipped into 25
the murky, freezing water three times by now – was too afraid to let go of the wall to wrap the lifeline around himself.
- 5 Fighting hysteria, Crump made calls to 911 but she was still worried that Adrian would lose his grip before they got there. That's when Lilly decided she had to go down -- despite her inability to swim. "Everyone was 30
panicking and crying, and I knew I couldn't wait any longer," she recalls. "I just had to get my nephew."
- 6 Crump and Adrian's father, Dale Clark, lowered Lilly down the shaft as far as they could, then let go. The well got wider part of the way down, and she slid past her nephew and into the water below. Fortunately, Lilly 35
instinctively pushed off the button, almost four metres underwater, and surfaced just under Adrian. "I got focused," she says. "My legs are long, so I put one foot on the wall on either side of the well and held myself up." With the water level just under her nose, Lilly then bolstered her 45-kilogram nephew, who was shaking in his soaking clothes. With one arm, she grabbed 40
the cord that Adrian's father was dangling from above and tied it around Adrian's waist.

7 "I was pushing him and holding on with my legs while they were pulling," Lilly says. "Somehow they got him out. I believe God was with us that day." Lilly herself was pulled out just as the rescue squad arrived. "In the 20 years I've been a paramedic, we've never had to rescue a child from a well," says Anson County Emergency Medical Service supervisor Linda Yow, adding, "I'm amazed that this young girl had absolutely no concern for her own safety."

8 Both Adrian and Lilly were taken to the hospital, where he was blanketed with heat packs to ward off hypothermia and she was treated for bruises and lacerations. County workers sealed the well for good.

9 The next week, Crump threw a surprise party to honour Lilly. "I can't thank Lykesia enough," Crump says. Now working in a day care centre, Lilly is hoping for a scholarship to attend the University of North Carolina, where she wants to study forensics. "She's more serious and responsible now," observes Crump. "I don't think she knew she had it in her."
